VOLUME 17, NO. 24

Sanitarium Zone Will Be Located Across Arroyo

Practically unanimous agreement was reached at last night's mass meeting on the district to the east of Santa Anita wash as the zone to be opened for sanitariums and hospitals for infectious, contagious and mental diseases.

The ground work having been laid at the previous hearing by the city trustees on the proposed zoning ordinance, there was not much difficulty in reaching that agreement. E. J. Webster moved that a vote be taken. Mayor Mitchell called for ayes and noes, and a rousing chorus of ayes was followed by one or two lonesome noes.

Discussion Wanders

Not since the days of the annual meetings of the old Sierra Madre Water Company has there been such an interesting free-for-all catch-as-catch-can discussion in Sierra Madre as that which raged throughout the evening. As a safety valve for letting off pent up steam it was probably a fine thing. But as a means of getting anywhere, much of it was chiefly serviceable in furnishing amusement.

Mayor Mitchell opened the discussion by reading the supreme court decision voiding the East San Diego ordinance prohibiting sanitariums altogether. Gordon Whitnall then reviewed the discussion of the previous week. He said he was convinced a zone ordinance restricting sanitariums to the district east of the wash would be sustained in court.

In response to a question from Frank Barbour, Mr. Whitnall said City Attorney Baker would include in the ordinance a provision to continue the old sanitarium ordinance in force so far as it did not conflict with the new one.

Mayor Mitchell read the present ordinance for the information of those present and R. B. Wilson immediately jumped up to demand why its enforcement had not been attempted by the city trustees. C. W. Jones asked if any individual could file complaints on which to base prosecution and was informed it could be done. Mr. Mitchell said the whole question hinged on the validity of the present ordinance, and the quickest possible court test would be secured in the present proceedings wherein the Snyder Sanitarium Co., seeks to compel the issuance of a building permit for a site inside the restricted zone. To attempt a test by means of prosecutions would be a slower process. If pending final action an attempt was made to wear out the sanitarium people by repeated prosecutions the city could be enjoined as was done in the East San Diego case.

When the mayor once remarked that the "friendly discussion" had wandered somewhat afield and everybody laughed, Mr. Wilson reproved them for their unbelief, saying, "This IS a friendly discussion. The louder we talk the more friendly we are. The mayor and I are good friends but I'm going to fight him to make this thing come out right."

Second Meeting

The meeting having accomplished its specific announced purpose, Mrs. C. J. Beers moved adjournment, the motion being seconded by several. After allowing some further questions and the discussion getting nowhere in particular, the mayor announced the meeting adjourned. Dean Shaw took the floor to protest, saying it was a public meeting and could not be adjourned until all had spoken as much as they wished. On motion of Capt. Osgood, Dean Shaw was elected chairman by a number of ayes who managed to make themselves heard above the din.

The trustees then remained as listeners while the discussion wandered further and further and became friendlier and friendlier. Finally the safety valve having effected the relief of a lot of pent up feelings, Dean Shaw declared the meeting adjourned on motion of Mr. Mitchell and duly carried.

In response to a question by E. H. Porter, Mayor Mitchell said he does not represent any person or firm interested in the sanitarium business in any way whatever.

Replying to a question from Mr. Wilson, the mayor said the city attorney would appeal the test case in the event of a decision against the city. Mr. Wilson insisted there should also be a prosecution in court as a test case, preferably against one of the mental institutions.

Mountain Fire Threatens Big Watershed

Fire which started about 10:30 a. m. Wednesday burned over about 1000 acres of the Pasadena watershed on the south slopes of Mt. Lowe before it burned itself out at midnight. For a time the terrific wind which was blowing threatened to scatter the flames over the south side of the range for miles in each direction.

The fire started from an unknown cause near Inspiration Point near the summit of the ridge. It soon spread all through Rubio Canyon which was denuded of vegetation, then to the west into Castle canyon. Hundreds of fire fighters were rushed to the scene by District Ranger Tom Sloan and Supervisor Charleton. The Pacific Electric sent several trainloads of men to assist in the fight for protection of the Mt. Lowe Incline, the Mt. Lowe Observatory and Alpine Tavern. At the top the fighting was headed by John Opid of Opid's camp.

Most of the land burned over was so precipitous in character as to prevent any close fighting. The only course was to let the fire make its way to the top of the ridges and burn out there for lack of fuel where the fire breaks had been cleared. The spectacular blaze continued all day and until midnight when the wind died down and further progress halted.

Property damage was not over \$10,000, it is said. But the damage to Pasadena watershed has been estimated as running into millions.

SEEK TO PROVE ORDINANCE INVALID Snyder Sanitarium Co., Starts Suit To Compel Issuance of Building Permit

Prompt court test of the old sanitarium ordinance is promised as a result of action started this week by Attorneys Moote & Patterson in behalf of George M. Anderson and Dean Perkins of the Snyder Sanitarium. They have asked for a writ of mandate to compel the city to issue a building permit for a sanitarium which was refused some time ago by the city. Hearing has been set for Wednesday, March 28, in Dept 1 of the superior court.

Grounds for the refusal were that the property involved lies within the district in which sanitariums are prohibited by the old ordinance, and also that such an institution might become a menace to public health by reason of its proximity to the municipal reservoir. The complaint asserts the ordinance is invalid and that the institution would not be a menace to public health.

Acting under instruction of the city trustees, City Attorney Baker will appear to defend the action. It is understood that other counsel retained by private persons will join forces with him. In addition it is expected the city attorney of Los Angeles will join in the defense. Gordon Whitnall regards the case as of sufficient importance to justify participation in order to help establish the principle of city zoning in law.

The ladies of the Order of Eastern Star will hold a home cooked food sale on Saturday March 24, in the corner show room of the Sierra Madre Garage. The sale will begin at ten o'clock and a choice assortment of good things will be offered.

for domestic and commercial lighting and 15,000 for cooking and heating purposes.

Reductions in rates to consumers were made during the year of twelve percent to lighting consumers, ten per cent to power consumers and eight per cent to the railways, totalling upwards of \$1,500,000, under order of the Railroad Commission.

President John B. Miller, during the year, completed his twenty-fifth year of service with the company and in his annual report commends the loyalty efficiency and enthusiasm of the personnel of the organization.

"Over a million dollars is the proportion of the Southern California Edison's budget for 1923, which will be allocated to the use of its Monrovia district which consists of the important owns of Monrovia, Arcadia, Azusa, Sierra Madre, Glendora, Covina, and Baldwin Park and the intervening territory," said district manager Fred Schwartz. "Of this, \$870,000 will be spent in the High Sierras and upon the transmission lines that bring power to the district, and \$156,000 will be spent in the district itself.

COMMUNITY RADIO PROGRAM ARRANGED

Chamber of Commerce Secures Co- operation of Local Artists for Times Program

Sierra Madre on the air! On April 23 Sierra Madre artists will give a full evening's program on the Los Angeles Times radio broadcasting station. This arrangement which will give the city valuable publicity has been completed by the Chamber of Commerce.

At the suggestion of Donald Ashmore, President Hawks appointed a committee composed of G. I. Farman, Mrs. J. Milton Steinberger and W. J. Lawless to draw up a tentative program for submission to the Times. In the meantime Mr. Ashmore conferred with Manager John S. Daggett of the Times radio station and received assurance of a date for the concert.

The committee was fortunate in securing the services of the following well known Sierra Madre artists: Mrs. Kathleen Lockhart Manning, Mrs. Homer W. Glidden, Oscar Rasbach, Oscar Seiling and Norval MacGregor. Upon submission of this list to "Uncle John" Daggett by Mr. Ashmore, the date for Sierra Madre night was set for April 23.

The Chamber of Commerce is planning to install a loud speaking radio set in the Woman's Club house that night and give the people of Sierra Madre an opportunity to hear their own splendid artists on the air. This feature will be announced more in detail through the News at a later time.

LODGE TO WORK IN FIRST DEGREE

The degree of Entered Apprentice will be exemplified at the regular meeting of Sierra Madre Lodge No. 408, F. & A. M. next Tuesday night, Mar. 20. At the meeting last Tuesday night Dr. Gilbert S. Bovard and Cedric W. Tarr were initiated into the mysteries of the order.

On the night of Mar. 27 the members of the lodge have been promised a treat in the form of a talk by Justus Krafft on his European travels and particularly his experiences in visiting Masonic lodges over there. Next week Mr. Krafft is to talk on the subject before Southern California Lodge in Los Angeles, of which he is a Past Master.

LEMON COLORING AGENT DISCOVERED

According to a statement issued from the Agricultural Extension office in Los Angeles, the outstanding discovery of recent months in scientific circles affecting the citrus industry is the announcement made by Mr. L. H. Denny of the Bureau of Chemistry, at the last meeting of the Lemon Men's Club to the effect that the agent causing the coloring of lemons during the curing process has been definitely discovered. It is now known to be the gas Ethylene. It has also been discovered that minute quantities of the gas are sufficient to color up the fruit satisfactorily. Moreover the gas is relatively cheap and not dangerous to handle. It is expected that this discovery will revolutionize practices used in lemon coloring.

C. OF C. MONTHLY DINNER MAR. 29

The Chamber of Commerce will hold the first of its monthly dinners on Mar. 29. These dinners were decided upon to take the place of the weekly luncheons which had to be discontinued at the end of December for lack of necessary facilities. The dinner will be given in the Woman's Club house and will be prepared by the club ladies. An interesting program of entertainment is being prepared, details to be announced later.

person to the floor and endeavored to learn what efforts had been made on the part of the sanitarium people to learn if they would be permitted to operate. He said they had been assured by many business men and officials that they would be welcome but refused to be specific as to individuals.

SCOUT DINNER HUGE SUCCESS

Parents Get New Insight into True Meaning of the Boy Scout Work

With more than 150 persons seated at the tables, the Boy Scout dinner of last Friday night proved to be one of the most enjoyable public affairs of many moons. The crowd was about equally divided between adults and boys of Scout age. In most cases the grownups had responded to the appeal to "bring a boy."

The tables were beautifully decorated, each paper napkin being folded tent fashion and surmounted by a favor in the form of a tiny silk American flag for the coat lapel. The dinner served by the ladies of the Woman's club was one of their very best and they never had a more appreciative crowd.

Much of the program was presented by the boys of Sierra Madre Troop No. 1 and consisted of stunts prepared under direction of Scoutmaster Stovall. All showed more forcibly than words the valuable character of Scout training, especially the first aid work displayed in the little playlet.

The affair being sponsored by the Chamber of Commerce, Rudolph Hartman, second vice president, presided very acceptably. Secretary Earl S. Porter of El Monte was introduced to supply an answer to the question, "Why is a Chamber of Commerce?" He made his address fit the occasion very aptly by interpreting community work in terms of Scouting, such as service and square dealing.

Dennis H. Stovall, Scoutmaster, told engagingly of the nature, aims and methods of Scouting and gave a new conception to most adults present. After dealing with the fundamentals of Scout law, he closed with a dramatic story illustrating the need to observe the law of obedience, which was well calculated to impress young and old.

George B. Morgridge, chairman of the local Scout committee, said the Chamber of Commerce had justified its existence by the single act of sending out the literature which induced Dennis Stovall to investigate and then to locate in Sierra Madre. Seeing what had been accomplished under Mr. Stovall's leadership, there was applause which indicated unanimous approval of the statement. Mr. Morgridge then explained the form of the Scout organization, through the local and district committees, and the local

THE HENRY HOOZITS—

BURGLAR'S LOOT BELONGS HERE

John McKenna Brought From San Francisco to Face Charges on Local Thefts

Several hundred dollars worth of silverware will be returned to its Sierra Madre owners as soon as the case against John McKenna can be tried.

Much of the silver has been positively identified and is now in possession of City Marshal Udell and the Sheriff's office.

J. G. Carson, L. J. Nelson, Louis Karpf and F. P. Conard are the lucky ones to have some of their belongings recovered. Not all of their loss has been found in any case. On the other hand the collection of booty contained a few pieces of table ware which are awaiting identification. Marshal Udell suggests that anyone whose home has been burglarized come to the city hall and inspect them, in the hope of adding additional links to the chain of evidence.

Mr. and Mrs. Carson are supposed to be on the Atlantic ocean, having sailed last week from New York. A complete list of their losses prepared at the time of their burglary last November served to identify many of the articles found.

McKenna was arrested by the San Francisco police when trying to sell a valuable lavaliere for \$1. An express receipt for a suit case shipped from Los Angeles produced the container of the silver. McKenna was brought to Sierra Madre on Tuesday and stuck to his original story of finding the package under a tree near Arcadia. When taken to the old hobo camp by the Santa Fe track he pointed out the supposed spot but admitted that no one could be expected to believe him.

It is hoped by Marshall Udell that McKenna will come through with an admission of his part in the local burglaries, or at least that he had a partner.

apportionment of \$375 to support the district budget of \$16,500.

Mayor Mitchell was then called to the front and in a few minutes of clever exhortation secured pledges of \$315 toward the budget.

Many citizens who could not be at the dinner will wish to contribute to the fund, and payments can be made to Secretary Floyd at the office of the Chamber of Commerce. Much of the success of the event was due to the activities of Major Floyd.

District Budget Gets a Million

Abundant supply of electricity generated from the waters of the mountain streams in Southern and Central California, and sold at low rates, is impelling eastern manufacturers to locate within the territory served by the Southern California Edison Company. It is also bringing such an enormous volume of inquiries from other concerns as to indicate great growth in population and community wealth. These are dominating features of the annual report of the company, presented at the meeting of stockholders at the general offices of Los Angeles today.

Branch plants have been installed by many concerns to serve the increasing population, and there is every reason to expect an enormous increase in the industrial load during 1923. The company has now over 50,000 stockholders, many of whom reside in Sierra Madre. District Manager Fred Schwartz, who with others from this section attended the meeting today, has been provided with an advance copy of the report which contains many features of interest to this community, among which are: The gross earnings of the company for the year were \$16,982,225.75 and, after the payment of operating expenses, depreciation and interest on bonds, the balance remaining was \$4,465,579.49, distributed to 48,107 individual stockholders owning the company's total capital stock of \$52,487,000.

An interesting chart is contained in the report showing the growth of the company's business, and which reflects the general prosperity of Southern California and the San Joaquin Valley in which territory the company's operations are carried on, relating that the gross earnings increased over a period of twelve years from \$3,800,000 in 1910 to \$16,982,000 in 1922.

From a total investment in 1909 of \$23,000,000 the demand for electric power service for residential, agricultural, industrial and railway service has necessitated rapidly increasing investment in water power plants and distributing properties from year to year to a total of \$152,000,000 at the close of the year 1922.

During the year the company's sales of stock resulted in an increase of 21,752 stock holders, nearly all of whom are residents of territory served by the company and consumers of its electric product.

The capital expenditures for the year were \$24,129,653.00 and consisted of work on new water power plants, transmission lines, substations and distributing plants. The budget of such new construction expenditures for the year 1923 calls for an even larger expenditure, the total being \$26,000,000. The 1923 expenditure make provision for the completion of new water power plants on the Big Creek—San Joaquin project of 122,000 horsepower capacity, increasing the company's total generating capacity to 501,000 horsepower.

By the end of the year 1923 there will be in operation on the Big Creek San Joaquin project four water power plants, generating 260,000 horsepower and using the same water over and over again four times, by means of the natural fall of Big Creek and the San Joaquin River, controlled by the scenically beautiful Huntington Lake reservoir located in the High Sierras, 7,000 feet above the sea level. Work on this great project proceeds from year to year and an additional 1,150,000 horsepower will ultimately be developed by the company, placing California the greatest water power generating project in the world and doubling the amount of water power developments now existing throughout the entire United States.

The outlook for new business in 1923 is particularly bright. The Commercial Department of the company has inaugurated a carefully prepared plan of campaign for the addition of 100,000 horsepower of new business for the year, to be comprised of 56,000 horsepower for commercial and agricultural purposes, 29,000 horsepower

SIERRA MADRE WOMAN'S CLUB

By Besse Palmer Rhodes
Press Chairman

Monthly Luncheon and Program

A renewal of interest in the monthly club luncheons was manifested last Monday by an unusually large attendance, which probably will assure the continuance of these delightful affairs, through the remainder of the club season. Mrs. Welscher, who has charge of these luncheons, was at her own request, granted the privilege of applying the proceeds from the next three luncheons to the furnishing of a cottage for disabled soldiers at Gidding's Ranch. This will be an added stimulus for even greater attendance in the future.

Mr. Earl Topping's remarks on "Local Water Problems" were heard with interest. Briefly he touched on the work which has been done to conserve the natural water supply, of weak points of the present system, of worn out mains and lack of mains, either new or old in some parts of the city. He strongly urged the necessity of a new 2,000,000 gallon reservoir to take care of the property above Carter avenue, where the really choice home-sites are located, and a part of which is even now being subdivided.

Mr. Topping stated that funds for much of this needed improvement are now available, and should be expended in developing the water system of Sierra Madre, in keeping with its development along other lines.

Mrs. E. K. Foster, president of the Juvenile Protective association, whose work for years has been along humanitarian lines, added her protest to the long list of those others whose hopes and aims and efforts for the past twenty years are threatened with complete or partial annihilation by the submitted budget. Mrs. Foster told of having decided to vote for Friend Richardson for governor, after having personally heard him declare his platform of economy and efficiency in no way interfering with educational, welfare or humanitarian institutions. Mrs. Foster had great hopes for a revision of the budget and urged women to stand as one in their determination to preserve these interests, which by their continuance are indeed a constant source of economy to the State. Gleanings from the Los Angeles and Sacramento newspapers were given by Mrs. W. J. Lawless comparing their almost vicious defense of the proposed budget upon its first appearance with their present docile attitude that, owing to the efforts of such leaders as Bishop William Hall Moreland, Archbishop Hanna, Mrs. W. A. Fitzgerald, State President of the Federation, Mrs. Ewing, State President of the P. T. A., and others, a revision will probably be made. Mrs. Lawless' remarks were well received.

A very lovely afternoon program

Berries and Grapes

Thornless Blackberries
Cory's Mammouth

Raspberries:—Surprise

Loganberries

Strawberries—Choice and Standard Varieties.

Guavas and Fiejoas

Grapes—Choice table varieties.

Gooseberries—Oregon Champion

was given by the talented members of the club. The secretary, Mrs. James N. Hawks, gave much pleasure in the singing of two Irish songs, and playing her own accompaniments.

A delightful rendition of "Land of Heart's Desire," by Mrs. H. E. Allen, chairman of the Drama Section, was prefaced by a short talk on the evident intent of Yeats, the author.

Dance

St. Patrick's dance tonight, Friday, March 16, with attractive features appropriate to the name. These special dances are always cleverly planned and carried out by Mrs. F. B. Seeley.

Having once attended, a pleasant memory allures one to accept renewed opportunities. Music will be furnished by the Fletcher orchestra.

Picnic

The attention of club members is again called to the importance of making reservations for transportation to Exposition Park on March 20, the date of the "Gallery Day" picnic. Miss Bush will be in charge of the delegation, and the gentleman in charge of the French exhibit will address the party. Persons willing to be generous with their machines and others anxious to avail themselves of this generosity, will telephone Miss Eleanor Bayne, Green 173, or Mrs. E. H. Carpenter, Green 172. Machines will leave the club house at 10 o'clock.

Selling-Manning Concert

In another column of the paper appears the splendid program which Sierra Madre will be privileged to enjoy next Friday evening, March 23, through the efforts of the Woman's club. The high class of the artists and the love and admiration with which they are regarded by the community will no doubt act as a magnet toward a capacity house.

A long list of patronesses has been secured, many of whom are entertaining with dinner parties previous to the concert. The wise ones will not delay in purchasing their tickets. These will be \$1.00 each, and are now on sale at the Sierra Madre Electric shop.

Art Program

Scheduled for Monday, March 26, is an Art program, which is being anticipated with joy by the many club members who have enjoyed the other delightful afternoons arranged by Miss Ella Shepard Bush, art chairman.

"Burne-Jones, the artist of Beauty," will be discussed by Mrs. Bannel-Sawyer and illustrated by stereopticon views. A charming interperment of music will consist of a cornet solo, "Palms," by Mrs. Homer Glidden, Mrs. George B. Morgridge accompanying; and piano selections by Miss Alice Marion Greer. An admission fee of 50 cents will be charged to non members.

The Club Family Grows

That the Woman's club is enjoying an era of increased popularity is evidenced by the influx of new members. As expressed by these new members who number 20, this stimulus is due largely to the high class of the club programs. The executive board feels a great sense of encouragement that their efforts to carry out this policy have resulted so happily for the club.

NUTRITIVE VALUE OF MEATS

The food value of Rabbit is recognized by all doctors. A New York physician writing, gives the following table:

Beef gives	55% nutriment
Mutton	65%
Pork	75%
Chicken	50%
Rabbit	83%

This doctor recommends rabbits for old people, for consumptives and for anaemic people.

EASTER HATS

To women everywhere Spring will soon bring all the many problems embraced in the word "HATS." Not the least is the natural question, "Shall I wear last season's straw which only needs a different color and a new trimming to suit me exactly, or shall I experiment with a new straw which may not look well on me at all?"

Why not let Elkay's Straw Hat Dye settle the question? With this inexpensive dye you can make last season's straw look new and different so quickly and easily you will wonder why you didn't try it long ago.

The results will delight you and you will save considerable toward other Spring apparel.

Elkay's Straw Hat Dye is permanent and waterproof, dries quickly to a lasting, lustrous color and actually restores life to the straw. Directions and a brush with each bottle.

Select your favorite color from the following: Dull Black, Liberty Blue, Burnt Straw, Old Rose, Violet, Natural, Gloss Black, Navy Blue, Gray, Cerise, Sage Green, Cardinal, Red, Yellow, Cadet Blue, Brown, Lavender.

The special price during March is 19c per bottle

TRADE AT HOME

If merchants and their salesfolks were not a mighty good natured bunch of folks whose rough edges have been worn down by hard contact with human nature they would have reason to get quite grouchy at times.

There are some persons who will go or send to more or less distant cities, and make important purchases of clothing, furniture or food-stuffs. Then when they find they want some little article in a hurry, and must have it for some pressing need, they rush to the home store, demand that it be supplied to them immediately.

They expect these stores to keep stocked up all the time on a wide variety of goods. Yet they fail to supply their share of the patronage that would warrant these stores in keeping such stock.

A group of good retail houses links up a town with the wonderful nationwide system for distributing modern products. They bring to you doors

the comforts and conveniences of advanced civilization from all over the world, where you can examine and select the things that you desire, and secure competent advice as to how to get results you want.

But people cannot expect to secure the kind of stores that their community is entitled to, on the basis of its population and wealth, if they are constantly running or sending away elsewhere to buy goods. Unless they give their patronage to their home stores, those stores cannot serve them with maximum efficiency.

The men who own and conduct the stores of this town are a loyal force working all the time to build up this community to provide it with the best modern facilities and equipment to improve its civic advantages and promote its prosperity. When you deal with them, you back up and promote the advance of your home town.

If you have anything to sell, rent or trade, put a wanted in the Sierra Madre News.

C. W. BRUNSON PASSES

After an illness extending over a period of years, Charles W. Brunson passed away Wednesday evening at his home in Los Angeles where he had resided the past two years. Mr. Brunson was born in Illinois and was 53 years of age. During his active business career he was an electrical engineer and carried on extensive contracting in Illinois and Missouri.

Coming to Sierra Madre about 12 years ago from Quincy, Ill., Mr. Brunson and his wife conducted the Shirley Hotel for some time, and later a boarding house on Auburn Ave., and made many warm friendships here. Mr. Brunson was a man of remarkably wide range of information, generous in his relations with his fellows. In addition to his devoted wife, Mr. Brunson leaves a son, Wade, who holds a responsible position with the Shell Oil Company of Los Angeles. Mr. Brunson was a member of Lambert Lodge, A. F. & A. M., of Quincy, Ill. Funeral services will be held Saturday at 2 o'clock at the A. T. Gay chapel. Interment will take place at the Sierra Madre cemetery and is to be in charge of the Sierra Madre Masonic lodge.

The girls of the Order of St. Catherine will hold a cooked food and candy sale in Welsher's Store on Saturday, March 31. Order your Easter cakes and candies now.

SPECIAL TO GUIDE

EAST WESTWARD

Carrying a message of welcome to the hundreds of thousands of eastern residents who will visit Southern California during the summer, a large party of travelers will leave Los Angeles April 8 on board the "Morus Special" of the Southern Pacific for New York. Many residents of Los Angeles and near-by cities, as well as eastern tourists who have been visiting here, will be included in the party.

Plans for running the special, by rail to New Orleans and thence on the steamer Morus were announced here today by G. W. Wetherby, Traffic Representative, Southern Pacific Company.

The All Year Club of Southern California is arranging for the special party to "invade" eastern territory with messages of welcome.

Reservations will be limited and for this reason allotments for representatives will be made to Sierra Madre and other Southern California cities.

The tour will take the travelers through Arizona, New Mexico, and Texas and then on through the Arcadia Land of the Teche, the country made famous by the story of Evangeline. After several hours of sight-seeing in New Orleans, the party will board the steamer Morus for the water trip to New York. The entire steamer will be reserved for the Southern California travelers.

NOTICE TO MASONS

Members of Sierra Madre Lodge No. 408, F. & A. M., and other members of the fraternity who can do so, are requested to meet at the hall of the lodge at 1:45 p.m., Saturday, Mar. 17, in order to participate in the funeral services of our late brother, Charles W. Brunson, a member of Lambert Lodge of Quincy, Ill.

GEORGE B. MORGRIDGE, W.M.

NOVELTY ORCHESTRA

FOR ANNUAL BALL

Tom Henderson is happy over having secured a famous Hawaiian Orchestra to furnish music for the second annual Firemen's Ball which will take place on Monday, April 2. These musicians will provide something which will be an absolute novelty so far as

Sierra Madre entertainment affairs go. Two members were with the famous orchestra in the Hawaiian Building at the San Francisco fair. They sing as well as play. Many other features of interest will be included to ensure a delightful evening.

REV. W. A. TATE PREACHES SUNDAY

Rev. W. A. Tate who recently returned from Hawaii after three years of Americanization work, will occupy the pulpit of the Congregational Church again next Sunday, both morning and evening. Dr. Tate is a scholarly man and his sermons last Sunday were greatly enjoyed. Other regular services of the day will be held as usual.

Do you know that the H. G. Chaffee Co. had its beginning back in 1902 and that its life has been a succession of years of prosperity and development?

Do you know that this subsidiary company has been organized for the purpose of securing additional capital with which to further develop this growing business?

Do you know that this subsidiary company, the H. G. Chaffee Warehouse Company, is offering a 7 per cent cumulative preferred stock at a price to yield over 7 1/2 per cent on the investment?

Do you know that the income of this company is guaranteed by the H. G. Chaffee Company through lease contracts and that the sales of the H. G. Chaffee Company are approximately \$6,000,000.00 per year and that last year they earned five times their preferred dividend requirements?

Do you know that this is a safe investment? If interested ask your banker or fill in the coupon and mail to us.

Price - \$97.00 per share or \$98.00 on easy Payments

BY THE WAY

PASSING EVERY DAY

One hundred Sierra Madre people, perhaps many more, are looking about them all the time for the best place to invest their money. There are many inviting places. It is difficult to choose. One of the safest pointers ever offered was this:

"When in doubt, buy real estate."

Real estate is a good foundation for any scheme of investment. It will remain so regardless of how diversified one's investments may become with increasing means.

Sierra Madre real estate right now offers the greatest opportunity that will ever come to many people who read this.

Local land prices have not kept pace with the advance which has taken place all over Southern California. It is still possible to pick up lots and acreage at prices far below the levels prevailing elsewhere. The value is there, but the fact has not been so widely discovered as to cause the demand to force prices upward.

That the upward movement of Sierra Madre land prices has begun in earnest is apparent to every one familiar with recent sales. How far it will go cannot be foretold. It is safe to prophesy, however, that it will be a long swing upward, and it will never return to present levels.

Most of those hundred people who are now looking for a safe, profitable investment, will be saying five years from now: Why couldn't I have foreseen what was going to happen when I could have bought Sierra Madre property at half the present price?

FORD PLANT TO ADD TO BUILDING

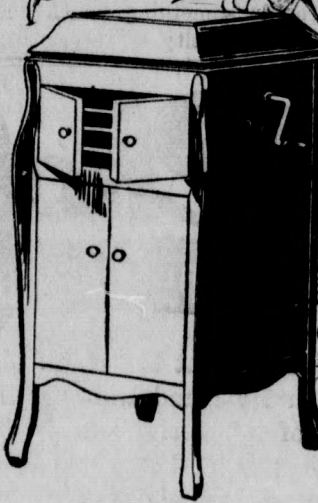

Rumors that industrial expansion of the Ford Motor Company to serve the requirements of the Southern California district would be confined to some place other than Los Angeles have been finally and definitely dispelled in the issuance of the company of a permit for the erection of a two-story Class A concrete and brick building located at 801 Santa Fe Avenue.

The site of the new building is directly adjoining the company's pres-

ent Los Angeles assembling and manufacturing plant and the work of construction has already started. John and Donald B. Parkinson are the architects and the permit covering their plans calls for the expenditure of \$250,000. Work is to be rushed to completion at the earliest possible moment.

The movie queen who had her picture taken in King Tut's head dress would probably fire her press agent if he allowed a picture to be printed in which she wore a bonnet two months old.

Sunshine & Showers

by DEWITT T. JONES

If Governor Richardson's budget is going to hurt education as much as Will C. Wood seems to think, we are mighty glad we finished our schooling before he was elected governor. We have never received any medals for penmanship but we wouldn't like to go through life making crosses on our checks.

That advertising pays is quite naturally one of the fundamentals of our belief in the country newspaper. It pays the advertiser and the community to which people are drawn through his efforts to attract patrons to his place of business, but even we are free to admit that advertising does not always pay the competition which neglected to send in copy.

Which would you rather be, a bigger fool than you look or look a bigger fool than you are?

We feel certain that there are no ex-city editors in the radio field, for if there were they would have a sending outfit installed in the divorce and criminal courts to pollute the air with scandal.

Even our newspaper career goes back to the time when country editors would take half a dozen hens as pay for a year's subscription. At the prevailing subscription prices nowadays an editor would have to give about two years' credit on subscriptions in order to get a hen large enough to eat.

Springtime brings raiment of jerseys and trunks. To lads, who are somewhat athletic; And likewise brings gingham and georgette in chunks, To delight the sense aesthetic. We'll sing of the season, such songs as are sung And kick up our heels in a caper; For Springtime, not only brings joy to the young, But also a verse for the paper. —Whit Greenleaf

Dressing is not usually considered an art peculiar to the male of the species but most any man can tell the average woman a few things about wearing hiking breeches.

Our entrant in the "Soulless Woman" contest is the mother who refused to let her son go swimming on Saturday afternoon and ordered him to take a bath before going to bed Saturday night.

According to the annual report of the American Telephone and Telegraph Company more people can afford telephones than formerly, which accounts for the sensational demands for service. We read quite a lot of the report but were unable to tell whether the company was glad or sorry.

Which would you rather be, a fool fool or an intellectual? Would you rather be so foolish that no one would take you seriously or so intellectual that you would be unable to take anyone else seriously? Personally we have no desire to take a seat in any little group of serious thinkers and hope that we will never be invited to join that big brotherhood of which the late P. T. Barnum was secretary and treasurer. As George Morgridge has a habit of saying, it is all a question of proportion. It seems to us that the proper proportions would be enough intellect to inspire the confidence of your neighbors and enough foolishness to believe that our neighbors are pretty good judges of human nature when they give us credit for having some brains.

BELIEFS

It seems to be getting quite a fashion for some preachers to talk a good deal about what they don't believe.

What people don't believe saves nothing, heals nothing, builds nothing.

A good deal more emphasis on what they do believe might not reach the front pages of the newspapers so often, but it surely would reach people's hearts oftener; and it is people's hearts that need to be touched in these troublous times.—Hemet News.

HELPFUL SPIRIT IS AKIN TO COURTESY

Ways of Aiding Each Other
Pointed Out by Officials of
Automobile Club

Have you ever thought of being "helpful" while you are driving on the city streets or boulevards?

There are certain things that every cautious motorist does to avoid having accidents, but sad to relate, say officials of the Automobile Club of Southern California, there is generally very little helpful spirit shown by motorists.

For instance, in approaching an intersection the law requires the correct arm signal if the motorist is going to make a turn. Sometimes motorists say to themselves, "Oh, well, there is no one behind me so why should I bother to signal?"

They don't stop to consider, states the auto club report, that an arm signal given in such an instance is very helpful to a driver approaching from another direction for then he can tell how to gauge his speed, even if he is not coming from behind.

Helpfulness on the road is very closely akin to courtesy and motorists who practice helpfulness will not grab the right of way at street intersections just because the margin of doubt is in their favor, but if they are truly helpful to the other fellow they will slow down courteously and see what he is going to do. In this way many accidents could be avoided as well as the loss of a lot of temper and the generating of a lot of ill feeling.

You can also be helpful in a traffic jam when there is no policeman present if you will not try to force your way through the mob of machines, but will look carefully about and see how you can best help to unravel the tangle.

Traffic jams are usually caused says the auto club safety bureau, by a failure to be helpful. If every motorist would consider the welfare of his driving neighbor there would never be any traffic jams accompanied by a bedlam of honking horns which sounds more like a boiler factory on a rampage than a group of human beings in automobiles trying to get home to dinner. And by the way, you would get your dinner more quickly if you would consider helpfulness rather than thoughtlessness.

SELLING EGGS BY WEIGHT INSTEAD OF BY COUNT

About every so often there is an agitation in some part of the country advocating that hen fruit be sold by weight the same as many other farm products. We have had propaganda in favor of this idea in this state for some years; other states have tried it (notably Iowa) by legislative enactment, but it would not "go"—the custom of selling by count was too thoroughly entrenched. Since eggs vary greatly in size it has been assumed that weighing was the logical and equitable way to sell them, but being somewhat fragile to handle, dealers have never been warmly in its favor. Another obstacle is that (unless it became a universal practice) it would seriously interfere with interstate business—a factor that made the idea inoperative in Iowa some twenty years ago. To overcome the inequality in the size of eggs, the product has become thoroughly standardized in California, the varying sizes going in several grades which command prices in keeping with the same.

In New York the idea of selling eggs by weight is being fostered by the State association of Weights and Measures, whose purpose it is to introduce the necessary legislation to bring it about this winter. It is said that there is a growing demand among farmers and dealers for the change. If eggs reach the latter in all kinds of conditions and sizes, and the breeders are unorganized, we can understand why there is such a growing sentiment, as some varieties of poultry produce larger eggs than others, and many customers prefer the big eggs under the belief that they are getting more for their money. With standard eggs and grades this condition is not so pronounced. It may be made to work in New York, but we have our doubts if the custom will ever become general.

MISSIONARY SOCIETY NAMES NEW LEADERS

The Woman's Missionary society of the Congregational church held its annual meeting in the church parlors Tuesday afternoon. Mrs. Mabel Hahn of the Near East Relief spoke of her personal experience among the Armenians in the Near East, to which cause the society made a contribution. The leaders and hostesses of the society for the year are as follows:

April—Leader, Mrs. A. F. Snell; hostesses, Mrs. W. S. Hull, Mrs. W. C. Sullivan.

May—Leader, Mrs. C. B. Reas; hostesses, Mrs. Charles Gray, Mrs. Frank Merrill.

June—Leader, Miss Stevenson; hostesses, Mrs. Theo. Koch, Mrs. S. M. Karicofe.

October—Leader, Miss Larjar; hostesses, Mrs. Charles Cover, Mrs. Preston Schwartz.

Nov.—Leader, Mrs. J. M. Campbell; hostesses, Mrs. Howard Hill, Mrs. George B. Morgridge.

December—Leader, Mrs. Geo. Anderson; hostesses, Mrs. Martha Butch, Mrs. W. B. Telford.

January—Leader, Mrs. Marie Watson; hostesses Mrs. Greer Caskey, Mrs. Kortcamp.

February—Leader, Mrs. R. J. Lord; hostesses, Mrs. F. H. Hartman, Mrs. J. D. Sparks.

March—Leader, Dr. May Laidlaw; hostesses, Mrs. Luther Gilsan, Mrs. L. M. Rice.

PLANT ANOTHER TREE

It is very fitting that the observance of a special week devoted to the planting of trees should be made a feature of California life, for it is in California that the greatest benefits and pleasures may be derived from the use of trees.

This movement is national in scope, and in almost every State in the Union its observance is being advocated by those who believe in the utility and beauty of trees. We take pride in this opportunity to aid in the success of the campaign in California, for we believe the people of this great commonwealth can add enormously to the beauty and comfort of life by increasing the number of trees round us and we call upon all societies, clubs and organizations, in addition to all individual land owners, to join us in carrying it through to success.

Everywhere along the highway shade trees should be planted, making alamedas of all of them. The result will add immeasurably to the attractiveness of the State, increasing our own enjoyment and furnishing a most potent inducement to the tourist and settler.

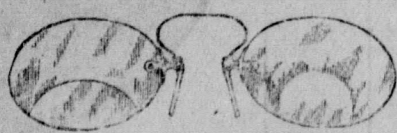

A shade tree or two in the garden, a few fruit trees in the back yard, bring added beauty and sustenance to the owner. Everywhere in the State the opportunity is offered to the rural and suburban dweller to improve the appearance of his homestead, and to have a family orchard that will add to the variety of his table.

Church and social grounds can be greatly improved by the planting of trees and shrubs. Church societies parent-teacher associations, school classes, and teachers, can arrange attractive programs for Tree Planting Week which will emphasize the esthetic and economic value of trees, and serve to encourage their planting.

Public parks, groves and streets offer splendid opportunities in the towns and cities for civic improvement, which will at the same time make life more attractive and enjoyable.

You who read this can do your part for your home community and for the State, by gathering your neighbors and associates to prepare for this week and its observance in a fitting manner. You will not only help your community, but you will bring added joy and comfort into your own life.

Preaching and communion service from 3 to 4 P. M.
Elder D. W. Nay of Pasadena will preach at 3 P. M., March 11th.

NOTICE OF TRUSTEE'S SALE

Whereas, Charles Prochazka and Louise Prochazka, his wife, by a deed of trust dated January 9, 1922, recorded in Book 638, Page 386, Official Records of Los Angeles County, California, did grant and convey the premises therein and hereinafter described to C. F. Seccombe, as trustee, to secure, among other things, the payment of a certain promissory note made to the order of A. H. Seccombe; and

Whereas, default has been made in the payment of said promissory note, and the said A. H. Seccombe has demanded that said trustee sell the premises granted by said deed of trust.

Now, therefore, notice is hereby given that the undersigned, by virtue of the authority vested in him as trustee, and in accordance with the terms and under the authority of said deed of trust, will sell at public auction, to the highest bidder for cash in gold coin of the United States, on Saturday, the 31st day of March, 1923, at the hour of 11 o'clock a. m. of said date, at the Broadway entrance of the County Court House, located on North Broadway, in the City of Los Angeles, State of California, the interest conveyed to him by the aforesaid deed of trust in and to the real property therein described, situated in the City of Pasadena, County of Los Angeles, State of California, described as follows:

All of that portion of Block "A" of the re-plat of Tebbetts Subdivision of a portion of Block "K" of the subdivided lands of J. H. Painter and B. F. Ball, as per map recorded in Book 42, Page 9 of Miscellaneous Records of said County, described as follows:

Beginning at a point on the East side of Fair Oaks Avenue, 282 feet South of the South line of Penn Street; thence South 93 feet along the East line of Fair Oaks Avenue; thence at right angles East 212 feet; thence at right angles North 93 feet; thence at right angles West 212 feet to the point of beginning.

Subject to an easement for street purposes over any portion included in the lines of Fair Oaks Avenue as widened.

Sale will be made subject to incumbrances of record.
C. F. SECCOMBE,
Trustee.

16 Years Ago

when I was trying to sell some telephone stock at \$60 for par value of \$100, in order to raise \$30,000 to start an exchange here, people said to me:

"Farman, you are crazy as a bedbug. The big Bell company will eat you alive whenever they get good and ready."

After four years, when the stock had gone up to 90 and was paying regular dividends, the same crepe-hangers came to me and said:

"Why did you not let me in on some of that stock?"

I firmly believe in less than one year YOU will be coming to me and saying:

"Why did you not let me in on those shares you were selling in the Pacific States Oil Co.?"

WHY? Because we are right in the big production where they are getting 35 gravity oil at the price of \$1.45 per barrel, against some of the other fields that are getting only 26 and 27 gravity oil at the price of 85 cents a barrel.

SEASON CLOSURES FOR CHEAP IRRIGATION

Owing to falling off in the supply of gravity water, Supt. Tom Henderson says it will be necessary to discontinue the temporary low rate on irrigating water recently authorized by the city trustees. With only a short continuance of the present weather it will be necessary to begin pumping to supply the local need, according to the zanjero.

Mrs. Doris Bissett and daughter Betty of Vancouver, and Mrs. Lizzie Blair of Seattle spent Wednesday visiting at the home of Mr. and Mrs. S. R. G. Twycross. All were formerly residents of Old Town, Maine.

The man on top is just standing on his friends' shoulders.

COUNTY HEALTH PLANS FOSTERED

Mayor Mitchell is Vice-President of Newly Formed Body to Fight Tuberculosis

Marking an important step forward in the development of Public Health in Los Angeles County for the benefit of the smaller cities and country territory, the Los Angeles County Tuberculosis Association completed its formal organization on March 10th. This organization, which is not to be confused with the city association, represents all of Los Angeles County except cities of Los Angeles, Long Beach, Pasadena, South Pasadena and Monrovia. At a meeting held Saturday at the Court House, the following officers were elected to serve one year:

Mr. L. F. Ferrish, District Superintendent of Schools, Venice, President; Mr. Robert Mitchell, Mayor of Sierra Madre and prominent attorney of the County, First Vice President; Dr. J. L. Pomeroy, County Health Officer, Second Vice President; Miss Lillian Simpson, Supervising Nurse, County Health Department, Secretary-Treasurer. In addition to these officers, the following were named to complete the board of seven directors: Mrs. T. N. Shaw, well-known club woman of Inglewood, Mrs. L. Yancey, Librarian at Beverly Hills and Mrs. A. T. Emory prominent resident of Whittier.

Mr. Ferrish, in commenting on the aims of the new organization, says: "One of the big functions of the County Tuberculosis Association is to co-operate with the Public Health Department in its endeavor to raise health standards throughout Los Angeles County, particularly among the school children."

In outlining the needs for such an organization, Dr. Pomeroy states: "There is a real need for a permanent association made up of local representatives of each of the cities and rural townships in Los Angeles County to function along the lines of tuberculosis prevention. The rapid growth of this territory, with its unparalleled climate, brings large numbers of persons here who hope to benefit by the change. Many of these people become public charges and their welfare is then a matter of serious importance. Furthermore, with the great increase of population, the work of the prevention, especially in relation to child hygiene, calls for definite efforts towards coordination of all public health activities throughout the county."

"The Los Angeles County Tuberculosis Association is an organization aimed to secure the highest ideals for child life by coordination of the work of the school nurses, health officers, and welfare departments in this territory."

"The keynote of the County organization is the building up of a number of definite groups in each health district throughout the county, all affiliated with the central County organization. It is contemplated that a permanent secretary will be employed to carry out the aims and purposes of this organization."

The Get-Together Club of the Eastern Star ladies enjoyed a social afternoon on Wednesday at the Stanley Pasco home, 395 Mariposa, the hostesses being Mrs. Pasco and Mrs. Arthur. The afternoon was spent at sewing, and tea was served.

FEEDING BROODER CHICKS

The feeding of the artificially brooded chicks is one of the most important factors in poultry keeping, and successful nutrition should begin with hatching and extend throughout the growing period. The first four weeks are the most trying, for this period covers the delicate stage of the chick's growth, and is the time when the death rate is the greatest and when mistaken methods will be shown

by poor broods. The following principles apply to baby-chick feeding, a discussion which will better fix them in the mind of the feeder.

Just prior to hatching, the yolk is drawn into the bird's body, and supplies the growing chick with nourishment for a number of hours after hatching. It is undesirable to tempt or force the chick to eat within a period of from forty-eight to sixty hours after hatching. The best practice is to supply fresh water and plenty of fine grit when putting chicks in the brooder. A good plan is to give the chicks their first feed the morning after they are placed in the brooder.

The young chick artificially hatched has to be taught many things which under natural conditions it learns from the mother hen; such as searching for feed, and the elementary process of eating. The natural instinct

of the chick is to pick up bright things; for this reason, feed which is easily seen is desirable.

When mixing a ration it is well to use some protein from an animal source, experiments showing that the best gain in weight follows the feeding of ration from two to ten per cent of which is animal substance, the common sources being meat scrap and bone. It is not advisable, however, to feed more than about two per cent of this material for the first week, since it is rather hard to digest; after that time the amount can be increased.

The practice should be to feed only what the chicks will eat up quickly, so that at the next feeding they are anxious and ready for feed. This prevents the loss of feed by its becoming dirty, in which case they will not eat it, and also gives them an appetite and a chance to exercise.

WANTADS

WANTED—All kinds of junk. I. B. Goldberg. Black 142. 17c-tf

WANTED—Carpentering, remodeling, jobbing, finish or rough. Day or contract. W. S. Pinkerton, 276 Santa Anita Court. ctf
